## Book of secrets deepak chopra

I am aware of the misleading consequences of observing and judging a book from its cover, but except for synopses and paragraphs of precious feedback, try me even more... I'm sure this is the next good book I'll like... Thanks for comment readers:) We all want to know how to find a soul mate, what career would be more fulfilling, how to live a life with sense, and how to teach our children well. We are looking for a personal turn, a turning point, a revelation that brings with it new meaning. The Book of Secrets - a crystalline distillation of insights and wisdom accumulated during the life of one of the great spiritual thinkers of our time - provides an exquisite new tool to achieve this. Every life is a book of secrets, ready to be opened. The secret of perfect love lies there, along with the secrets of healing, compassion, faith, and the most elusive of all: who we really are. We are still mysteries for ourselves, despite the closeness of these answers, and what we know for a long time remains in depth within. Because answers to questions at the centre of life are counterintuitive, they are often hidden from sight, seized by our daily gaze. In his ongoing research to elevate our experience, the bestseller author Deepak Chopra has isolated fifteen secrets that guide the narrative of this inspirational book - and our lives. From "The world is in you" and "What you are looking for, you are already" to "Evil is not your enemy" andThey're really free when you're not a person," The Book of Secrets is rich in insights, an invaluable treasure that can transport us beyond change to transformation, and from there to a sacred place where we can taste the nectar of lighting. "The Book of Secrets is the most beautiful and deepest of Deepak Chopra's books to date. You want answers to the secrets of life? Let us suggest you start right here." Ken Wilber, author of A Brief History of Everything From the Hardcover. Unbridged / Go to the Audiobook Abridged Written by: Deepak Chopra Narrated by: Daniel Passer Date: June 2004 Duration: 8 hours 55 minutes Deepak Chopra, author of bestseller, states that in each of us is a book of mysteries waiting to be opened - and when it is, the secrets of the universe will be revealed to us. The secret of love is nowhere but within us, along with the secrets of healing, compassion and faith, and the most elusive secret of all: who we really are. We all want to know who to choose as a partner, what work to hire, how to teach our children well. This audiobook, a crystalline distillation of insights and wisdom accumulated during the life of one of the great spiritual thinkers of our time, isolates fifteen secrets - among them, 'What you have already known', 'Life Hurts When It Is Unreal' and 'There Is No Time But Now' - which can open our eyes to truths that indicate the way to transformation and enlightenment.
